(3) Planned Program Benefits. (Describe below how your planned programs and activities will address the needs of low income families identified above. Also describe how your planned programs will address the various types of housing assistance needs NAHASDA § 102(b)(2)(B):

There is still a severe shortage of decent and affordable housing to adequately meet the needs of the nearly 3,000 families in the 51 member tribes that designated AVCP RHA as their TDHE. Many tribal families live in substandard homes that, in many cases, are overcrowded due to the shortage of affordable housing. It is the consensus of the AVCP RHA Board of Commissioners to continue to maintain and modernize existing current assisted stock, develop or acquire additional affordable rental units, and provide for the very low income tribal families to address the identified needs. AVCP RHA will also provide renovation of privately owned homes. AVCP RHA also plans to implement a tenant and/or project based rental assistance program for tribal members within the AVCP region. The lack of adequate income earned by most families is identified as the major reason why there exists substandard and overcrowded living conditions throughout the region. Therefore, plans and strategies to use NAHASDA funds to provide support for low income families who do not have adequate funds to pay a conventional monthly house payment are essential. Furthermore, to assist these families, the housing authority will make available an educational housing assistance grant program to help students with housing costs as they attend vocational or higher education at the university level while away from their homes. The housing authority will

also provide an emergency voucher program to assist eligible families to prevent utility or power shutoffs or to make house payments to prevent eviction or homelessness. The above mentioned types of assistance should somewhat alleviate both inadequate income and the use of substandard housing in the future.

(4) Geographic Distribution. Describe below how the assistance will be distributed throughout the geographic area and how this geographic distribution is consistent with the needs of low income families. NAHASDA § 102(b)(2)(B)(i):

Services will be provided in both the Bethel Census Area and the Kusilvak Census to as many low income Alaska Native American Indian families. The Housing Services programs are first made available to tribal members of tribes who have named the AVCP Regional Housing Authority as their tribally designated housing entity within these two areas. Based on the annual funding levels, the development of new units and the modernization of current assisted stock is rotated region wide (every 3 4 years for each village) based on actual need. Additionally, students provided housing assistance may go to a trade school or university outside of the service area described outside of the service area described above.

SECTION 3: PROGRAM DESCRIPTIONS

[102(b)(2)(A)], [233(a)], [235(c)], [404(b)], 24 CFR §1000.512(b)(2) and (3)

Planning and Reporting Program Year Activities

In this section, the recipient must provide a description of its planned eligible activities, and intended outcomes and outputs for the One-Year IHP. The recipient can select any combination of activities eligible under NAHASDA and intended outcomes and outputs that are based on local needs and priorities. There is no maximum or minimum number of eligible activities or intended outcomes and outputs. Rather, the One-Year IHP should include a sufficient number of eligible activities and intended outcomes to fully describe any tasks that the recipient intends to fund in whole or in part with IHBG resources during the coming program year.

Subtitle B of NAHASDA authorizes recipients to establish a program for self-determined housing activities involving construction, acquisition, rehabilitation, or infrastructure relating to housing activities or housing that will benefit the low-income households served by the Indian tribe. A recipient may use up to 20 percent of its annual allocation, but not more than \$2 Million, for this program. Section 233(a) of NAHASDA requires a recipient to include its planned self-determination program activities in the IHP, and Section 235(c) requires the recipient to report the expenditures, outputs, and outcomes for its self-determination program in the APR. For more information, see PIH Notice 2010-35 (Demonstration Program - Self-Determined Housing Activities for Tribal Governments) at http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_8814.pdf

The One-Year IHP is not required to include eligible activities or intended outcomes and outputs that will not receive IHBG resources. For example, the recipient may be planning to apply for Low Income Housing Tax Credits (LIHTC) from its state. If those tax credit projects will not receive IHBG resources, they are not required to be described in the IHP. However, the recipient may wish to include non-IHBG activities in the IHP to provide tribal members with a more complete picture of housing activities.

If an activity will receive partial funding from an IHBG resource, it must be described in the IHP.

For example, if the recipient uses IHBG-funded staff persons to manage, inspect, or maintain an LIHTC-funded rental project, that project would be considered an IHBG-assisted project and the related activities must be described in the IHP.

Planning and Administrative expenses and loan repayments should not be identified as programs in the IHP. That is why there are dedicated rows in the Uses of Funding budget for these expenses. Instead, describe anticipated planning and administrative expenses in Section 6, Line 4 of the IHP, and describe actual planning and administration expenses in Section 6, Line 5 of the APR. Report the planned and actual amount of planning and administrative expenses in the dedicated row of the Uses of Funding budget (Section 5, Line 2). Please note that Reserve Accounts to support planning and administration is an eligible activity and should be identified as a program in the IHP, and any planned or actual expenditure from the Reserve Account would be reported by its program name in the Uses of Funding table.

For the IHP, complete the **unshaded** sections to describe the planned activities, outcomes and outputs in the coming 12-month program year. The recipient must complete Lines 1.1 through 1.4, Lines 1.6 and 1.7, and Line 1.9 for each eligible activity or program planned for the One-Year IHP. For the APR, complete the shaded sections to describe actual accomplishments, outcomes, and outputs for the previous 12-month program year. In particular, complete Lines 1.5, 1.8, 1.9, and 1.10 for each program included in the IHP.

IHP: PLANNED PROGRAM YEAR ACTIVITIES (NAHASDA § 102(b)(2)(A))

For each planned activity, complete all the non-shaded sections below. It is recommended that for each program name you assign a unique identifier to help distinguish individual programs. This unique number can be any number of your choosing, but it should be simple and clear so that you and HUD can track tasks and results under the program and collect appropriate file documentation tied to this program.

- One way to number your programs is chronologically. For example, you could number your programs 2011-1, 2011-2, 2011-3 etc.
- Or, you may wish to number the programs based on type. For example rental 1, rental 2, homebuyer1, homebuyer 2 etc. This type of numbering system might be appropriate if you have many programs that last over several years.
- Finally, you may wish to use an outline style of numbering. For example, all programs under your first eligible activity would start with the number 1 and then be consecutively numbered as 1.1, 1.2, 1.3 etc.

APR: REPORTING ON PROGRAM YEAR PROGRESS
